# Terminology

- **Entry Point** – Mail is delivered to your Mailshop's Local Post Office.
- **BMC** – Bulk Mail Center, an automated USPS distribution facility, presently 29 throughout the USA.
- **SCF** – Sectional Center Facility, a USPS mail-processing hub that serves the large area designated by the first three digits of a ZIP code.
- **Commingle** – To integrate dissimilar mail into the same mail stream, resulting in further postal discounts by taking advantage of the increased volume to intended ZIP codes.
